LIST OF CONTENTS

Volume 36, Number 1

R.W. Hall	1	Incident dispatching, clearance and delay
H.Y. Tong and **W.T. Hung**	17	Neural network modeling of vehicle discharge headway at signalized intersection: model descriptions and results
B.P.Y. Loo	41	The potential impacts of strategic highways on new town development: a case study of Route 3 in Hong Kong
	65	Book review
	75	Recent doctoral dissertations

Volume 36, Number 2

D.W. Eby and **L.J. Molnar**	95	Importance of scenic byways in route choice: a survey of driving tourists in the United States
E.R. Petersen	107	A highway corridor planning model: QROAD
M.B. El-Hifnawi	127	Cross-town bus routes as a solution for decentralized travel: a cost-benefit analysis for Monterrey, Mexico
E.R. Kraft	145	Scheduling railway freight delivery appointments using a bid price approach
M.E.T. Horn	167	Multi-modal and demand-responsive passenger transport systems: a modelling framework with embedded control systems

Volume 36, Number 3

J.O. Fasakin	189	Daily cost considerations in the operations of commercial motorcycles in Nigeria: a locational analysis for Akure township
K.S. Chan and **W.H.K. Lam**	203	Optimal speed detector density for the network with travel time information
E. Fernandes and **R.R. Pacheco**	225	Efficient use of airport capacity
J. Dahlgren	239	High-occupancy/toll lanes: where should they be implemented?
R.W. Hall and **V.C. Sabnani**	257	Control of vehicle dispatching on a cyclic route serving trucking terminals
W.G. Wong, B.M. Han, L. Ferreira, X.N. Zhu and **Q.X. Sun**	277	Evaluation of management strategies for the operation of high-speed railways in China

Volume 36, Number 4

L. Fu	291	A simulation model for evaluating advanced dial-a-ride paratransit systems
A. Haghani and **M. Banihashemi**	309	Heuristic approaches for solving large-scale bus transit vehicle scheduling problem with route time constraints
J.-B. Sheu	335	A sequential group decision-making approach to strategic planning for the development of commercial vehicle operations systems
B. Coifman	351	Estimating travel times and vehicle trajectories on freeways using dual loop detectors
S. Yang and **G.A. Davis**	365	Bayesian estimation of classified mean daily traffic

Volume 36, Number 5

P.M. Timms, A.D. May and **S.P. Shepherd**	383	The sensitivity of optimal transport strategies to specification of objectives
K. Nakamura and **K.M. Kockelman**	403	Congestion pricing and roadspace rationing: an application to the San Francisco Bay Bridge corridor
J.-E. Nilsson	419	Towards a welfare enhancing process to manage railway infrastructure access
R.J. Hjorthol	437	The relation between daily travel and use of the home computer
A. Haghani and **Y. Shafahi**	453	Bus maintenance systems and maintenance scheduling: model formulations and solutions

Volume 36, Number 6

J.C. Muñoz and **C.F. Daganzo**	483	The bottleneck mechanism of a freeway diverge
C.F. Jaarsma and **T. van Dijk**	507	Financing local rural road maintenance. Who should pay what share and why?
Y. Li and **S. Madanat**	525	A steady-state solution for the optimal pavement resurfacing problem
H. Yang, W.H. Tang, W.M. Cheung and **Q. Meng**	537	Profitability and welfare gain of private toll roads in a network with heterogeneous users
S. Chu	555	Auctioning rights to vehicle ownership: Singapore's experience with sealed-bid tenders
M.J. Cassidy, S.B. Anani and **J.M. Haigwood**	563	Study of freeway traffic near an off-ramp

Volume 36, Number 7

T. Schwanen and **M. Dijst**	573	Travel-time ratios for visits to the workplace: the relationship between commuting time and work duration
A. Ballis and **J. Golias**	593	Comparative evaluation of existing and innovative rail–road freight transport terminals
H. Yang and **Q. Meng**	659	A note on "highway pricing and capacity choice in a road network under a build-operate-transfer scheme"
C.J. Rodier and **R.A. Johnston**	613	Uncertain socioeconomic projections used in travel demand and emissions models: could plausible errors result in air quality nonconformity?
J. Loizides and **E.G. Tsionas**	633	Productivity growth in European railways: a new approach
J.L. Gifford and **O.J. Stalebrink**	645	Remaking transportation organizations for the 21st century: consortia and the value of organizational learning

Volume 36, Number 8

A. Benedetto	665	A decision support system for the safety of airport runways: the case of heavy rainstorms
R.L. Bertini and **M.J. Cassidy**	683	Some observed queue discharge features at a freeway bottleneck downstream of a merge
A. Ceder and **K. Eldar**	699	Optimal distance between two branches of uncontrolled split intersection
A.F. Al-Kaisy, F.L. Hall and **E.S. Reisman**	725	Developing passenger car equivalents for heavy vehicles on freeways during queue discharge flow
K. Cullinane, D.-W. Song and **R. Gray**	743	A stochastic frontier model of the efficiency of major container terminals in Asia: assessing the influence of administrative and ownership structures

Volume 36, Number 9

P.L. Durango and **S.M. Madanat**	763	Optimal maintenance and repair policies in infrastructure management under uncertain facility deterioration rates: an adaptive control approach
G. Stojković, F. Soumis, J. Desrosiers and **M.M. Solomon**	779	An optimization model for a real-time flight scheduling problem
E. Melachrinoudis and **G. Kozanidis**	789	A mixed integer knapsack model for allocating funds to highway safety improvements
S. Yan and **H.-L. Chen**	805	A scheduling model and a solution algorithm for inter-city bus carriers

G.C.K. Wong and **S.C. Wong** 827 A multi-class traffic flow model – an extension of LWR model with heterogeneous drivers

R.H. Ballou, H. Rahardja and **N. Sakai** 843 Selected country circuity factors for road travel distance estimation

Volume 36, Number 10

R.W. Hall and **H. Zhong** 849 Decentralized inventory control policies for equipment management in a many-to-many network

N. Wu 867 A new approach for modeling of Fundamental Diagrams

S. Yan, C.-Y. Shieh and **M. Chen** 885 A simulation framework for evaluating airport gate assignments

B. Coifman and **M. Cassidy** 899 Vehicle reidentification and travel time measurement on congested freeways

J. Blum and **A. Eskandarian** 919 Enhancing intelligent agent collaboration for flow optimization of railroad traffic
